

## ABOUT US

At Eagle's Wings Preschool we are passionate about sharing God's love, our love of learning, and love for one another. We believe young children learn best through play and exploration. We foster engaging learning experiences through hands-on activities, play-based learning centers, art, science, cooking, music, free play exploration inside/outside, and school-wide thematic units that encourage creativity and community. Our curriculum covers all areas of early learning including literacy, math, science, social studies, art, music, and both fine and gross motor movement. First and foremost, we are dedicated to building a nurturing environment for our students—an environment where students feel safe, secure, and loved.
